Subject:

Endorsement of National Plan Aruba 2009-2018

The European Public Health Alliance (EPHA) is a Platform bringing together local, national, European and International non-governmental organisations and other not-for-profit-organisations active in promoting health.

EPHA's mission is to promote and protect the health of all people living in Europe and advocate greater participation of citizens in health-related policy making at the European level

As EPHA promotes the development of public health policy, EPHA fully supports and endorses the National Action Plan 2009-2018 to tackle the epidemic of overweight and obesity in Aruba. With this Action Plan, the fight against the obesity pandemic will be given priority by utilising a strategic framework that provides proven public health models and evidence-based policy.
